

# TORNADO PLUS

## SPIRAL RIBBED INSIDE

This revolutionary product is specially designed by Dura-Line's research team to enhance cable blowing/jetting performance for faster roll outs. Special inside Spiral design creates an air cushion tornado effect around cable reducing friction and increasing installation speeds and distance.

### FEATURES AND BENEFITS:

- Inner Spiral ribs of predefined shape and geometry with Silicore layer
- Spiral ribs enhance compressed air effect, driving cable longer and faster
- Improves Cable Blowing performance by > 200% over smooth wall ducts
- Enables use of longer drum lengths, reducing number of splice joints and manholes
- Reduces network roll out costs and time > 30%

<b>INSTALLATION APPLICATION</b>	Existing Conduit • Plow • Direct Burial • Aerial
<b>MARKET APPLICATION</b>	 Telecom  Enterprise  Internet of Things  Fiber to Home
<b>COLORS</b>	
<b>SIZES</b>	25 mm to 50 mm
<b>FOOTAGE MARKINGS</b>	Sequential foot or meter markings. Custom print streams available.
<b>SILICORE</b>	SILICORE is co-extruded with the tough HDPE jacket creating a super slick permanent lining. SILICORE lined ducts allow for higher speed cable jetting and longer cable pulls. 
<b>PREINSTALLED TAPE</b>	Factory pre-installed Bull-Line™ Pull Tape with EVEN-LOAD™ ensures extra slack at any access point throughout the reel. Available 500 lb - 6,000 lb tensile strength or locatable
<b>PREINSTALLED CABLE</b>	Specify single or multiple cables to be factory pre-installed. Cable types: Service Drops, Fiber, Coaxial, 600 Volt Al, 600 Volt Cu, Medium Voltage
